Contents

NUMBER 1, JANUARY 1983

1 *J. A. De Boever and P. A. Adriaens:* Occlusal relationship in patients with pain–dysfunction symptoms in the temporomandibular joints

9 *R. A. Moss, D. Wedding and S. H. Sanders:* The comparative efficacy of relaxation training and masseter EMG feedback in the treatment of TMJ dysfunction

19 *R. J. Smales:* Incisal angle adhesive resins: a 5-year clinical survey of two materials

25 *S-E. Widmalm and S. G. Ericsson:* The influence of eye closure on muscle activity in the anterior temporal region

31 *I. C. Benington:* Post-surgical prosthodontics: clinical notes

41 *T. L. P. Watts and B. W. Bertenshaw:* Subcutaneous tissue tesponse in rats to an aluminoborate cement

51 *P. J. Cox, P. S. Rothwell and A. J. Duxbury:* The masseteric silent period following experimental bruxism in subjects wearing acrylic anterior bite planes

57 *D. R. Beech and S. Bandyopadhyay:* A new laboratory method for evaluating the relative solubility and erosion of dental cements

65 *S. Karlsson:* Denture mobility and bolus position during mastication in patients wearing conventional and pelotte-retained full upper dentures: a cineradiographic study

75 *A. S. Hargreaves:* The effects of cyclic stress on dental polymethylmethacrylate. I. Thermal and environmental fluctuation

87 *S. E. Mohamed, L. V. Christensen and J. D. Harrison:* Tooth contact patterns and contractile activity of the elevator jaw muscles during mastication of two different types of food

NUMBER 2, MARCH 1983

97 *H. S. Gray and G. E. Myers:* Movement of abutment teeth in spring cantilever bridges: a laboratory study

105 *A. Tallgren, S. Holden, B. R. Lang and M. M. Ash, Jr:* Correlations between EMG jaw muscle activity and facial morphology in complete denture wearers

121 *N. K. Sarkar, W. Redmond, B. Schwaninger and A. J. Goldberg:* The chloride corrosion behaviour of four orthodontic wires

129 *R. Yemm:* The use of biofeedback to obtain jaw-muscle relaxation in denture-wearing subjects

137 *A. S. Hargreaves:* The effects of cyclic stress on dental polymethylmethacrylate. II. Flexural fatigue
153 *R. M. Browne, D. A. Sidaway, R. S. Tobias, S. C. Bovis and A. S. Britten:* A method for sampling the cavity wall/material interface for microbiological culture
159 *J. R. Heath, J. C. Davenport and P. A. Jones:* The abrasion of acrylic resin by cleaning pastes
177 *C. H. Turner and A. F. W. Willoughby:* An investigation of the process of casting cores on to preformed wrought dental posts
187 *J. D. Haber, R. A. Moss, A. R. Kuczmierczyk and J. C. Garrett:* Assessment and treatment of stress in myofascial pain-dysfunction syndrome: a model for analysis

NUMBER 3, MAY 1983

197 *D. A. Luke and P. W. Lucas:* The significance of cusps
207 *A. Sheikholeslam and C. Riise:* Influence of experimental interfering occlusal contacts on the activity of the anterior temporal and masseter muscles during submaximal and maximal bite in the intercuspal position
215 *C. Main, A. Cummings, H. Mosely, K. W. Stephens and F. C. Gillespie:* An assessment of new dental ultraviolet sources and u.v.-polymerized fissure sealants
229 *G. L. Polyzois:* The wearing of complete dentures: guidance to patients
237 *M. J. Gross and C. H. Turner:* Intra-radicular hydrostatic pressure changes during the cementation of post-retained crowns
251 *D. M. Smith, W. D. Ziter, N. D. Mohl and W. D. McCall, Jr:* Influence of auriculotemporal nerve anaesthesia on the masseteric silent period
257 *K. D. B. Faulkner and H. F. Atkinson:* An analysis of tooth position on initial tooth contact
269 *F. A. Xhonga and S. Valdmanis:* Geographic comparisons of the incidence of dental erosion: a two centre study
279 Book reviews

NUMBER 4, JULY 1983

283 *P. J. Potgieter, B. D. Monteith and P. L. Kemp:* The determination of free-way space in edentulous patients: a cephalometric approach
295 *J. G. Knapp:* Computer graphic representation of mandibular movements in three dimensions: the method
307 *C. Main, J. L. Thomson, A. Cummings, D. Field, K. W. Stephen and F. C. Gillespie:* Surface treatment studies aimed at streamlining fissure sealant application
319 *J. M. Powers, C. L. Yeh and Y. Miyagawa:* Optical properties of composites of selected shades in white light

325 *J. M. S. Clancy, F. R. Scandrett and R. L. Ettinger:* Long-term dimensional stability of three current elastomers
335 *T. Morimoto, T. Hamada and Y. Kawamura:* Alteration in directional specificity of interdental dimension discrimination with the degree of mouth opening
343 *M. M. A. Vrijhoef, F. L. Lourens and A. F. M. Leijdekkers-Govers:* Phenomenological model of creep of dental amalgam
349 *L. Lorton and P. Whitbeck:* Diagnosis of the aesthetic components of the mandibular anterior prosthesis
357 *M. T. M. Jiffry:* Variations in the particles produced at the end of mastication in subjects with different types of dentition
363 *S. D. Meryon and R. M. Browne:* Evaluation of the cytotoxicity of four dental materials *in vitro* assessed by cell viability and enzyme cytochemistry

NUMBER 5, SEPTEMBER 1983

373 *J. R. Jedrychowski, A. A. Caputo and S. Kerper:* Antibacterial and mechanical properties of restorative materials combined with chlorhexidines
383 *M. D. Russell:* The relationship of occlusal wear to occlusal contact area
393 *T. L. P. Watts, B. W. Bertenshaw and E. C. Combe:* Initial physical tests of aluminoborate cements in the context of periodontal dressing development
399 *M. T. Marunick, B. B. Chamberlain and C. A. Robinson:* Denture aesthetics: and evaluation of laymen's preferences
407 *D. F. Williams, J. Cunningham, M. J. Lalor, D. Groves and J. T. Atkinson:* Laser techniques for the evaluation of wear in Class II restorations
415 *M. T. M. Jiffry and G. Molligoda:* Development of the swallowable composition of food in normal dentate subjects
421 *C. H. Turner and M. J. Gross:* Investigation of hydrostatic pressure changes during cementation of screw-retained posts, and posts with integral cement release channels
429 *Society of Oral Physiology:* Abstracts of Presentations to the Thirteenth Biennial Meeting 12–15 May 1983, Oosterbeek, Holland

NUMBER 6, NOVEMBER 1983

461 *A. M. Abdel-Hakim:* Stomatognathic dysfunction in the western desert of Egypt: an epidemiological survey
469 *J. Rajstein, M. Fuks, A. Markitziu and I. Gedalia:* Solubility of enamel powder following treatment with a sodium-n-lauroyl sarcosinate containing toothpaste in the presence and absence of fluoride
473 *C. Riise and S. G. Ericsson:* A clinical study of the distribution of occlusal tooth contacts in the intercuspal position at light and hard pressure in adults

481 *G. A. Smith, W. R. E. Laird and A. A. Grant:* Magnetic retention units for overdentures
489 *N. K. Sarkar, C. S. Eyer and B. K. Norling:* Relationship between creep, γ^2, and marginal fracture of dental amalgams
495 *B. R. Gold and D. J. Setchell:* An investigation of the reproducibility of face-bow transfers
505 *J. H. P. de Vree, M. C. R. B. Peters and A. J. M. Plasschaert:* A comparison of photoelastic and finite element stress analysis in restored tooth structures
519 *L. V. Christensen and S. E. Mohamed:* The possible activity of large and small jaw muscle units in experimental tooth clenching in man
527 Index to Volume 10
